I Support Healthy Schools in Windham

Petition in Opposition to Outsourcing Windham Public Schools Cafeteria Services

We the undersigned are committed to a safe environment in Windham Public Schools, which requires serving the district's children healthy, nutritious meals every day. We believe it is irresponsible to balance a Board of Education's (BOE) budget at the expense of the health and well-being of our community's children and local working families who are struggling in this difficult economy. We oppose the Superintendent's proposal to contract-out the schools' food services to a private, for-profit food services vendor.
