

Help Keep Windham Schools' Food Services Local!

Windham Public Schools cafeteria workers are committed to providing quality meals to the community's schoolchildren.

- **The Windham Board of Education recently announced that they would seek to outsource our school foodservices**
- **Outside contractors are less accountable to the taxpayer and cut corners in food quality, nutrition and service.**
- **Contracting out would eliminate good jobs in our town, sending our tax money away.**

When we pay good wages to members of our community, that money is spent in our community. By working together we can continue to provide the best services possible for our children.
